

# CLAVI

 Swiss-made

The ultimate edge in trading meets ultimate ease of use; the most luxurious digital asset manager for businesses, funds and professionals.

**Dara Sabeti**  
CEO

DLTs specialist, Dara is an Aerospace Engineer who has pursued the development of high end product design and engineering.

**Maxime Hacquard**  
Brand Director

World-renowned designer & entrepreneur. Having built a community of 1M+ designers, his clientele includes: McLaren, Givenchy, Hublot and more.

## Opportunity

Current hardware wallets are neither efficiency-oriented nor easily accessible. Wealthy individuals, funds, accountants and lawyers spend time and energy worrying about custody of funds.

### To Summarise:

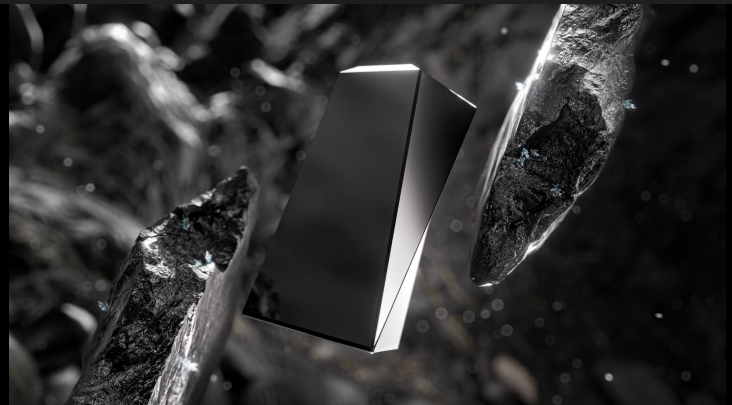

- Current products are cheaply made and offer few services.
- The blockchain space is difficult to access and the products are cumbersome to set up and use.
- There is no easy self custody solution for wealthy individuals or businesses.

## Solution

Clavi solves major flaws in self-custody restoring trust and accessibility to digital asset management. Mass adoption is on the way.

### Clavi:

- Easy to use. Make transactions with confidence in just 1-tap.
- Luxury construction and finish for discerning investors and traders.
- All you need to manage treasuries and digital portfolio.

## Technology

- Triple fingerprint biometrics
- MPC for multi-layered security and fund access
- Nitrogen sealed devices and packaging for tamper-proofing
- Bespoke in-house designed multi-PCB array
- Open-source OS & developer's SDK toolkit

## Market
